CREAZIONI RAFFINATE PER IL BENESSERE
I nuovi soffioni Gessi Private Wellness® costituiscono una famiglia di oggetti raffinati, che trasfigurano artisticamente il luogo e il momento doccia, come gioielli dall'uso funzionale.

REFINED CREATIONS FOR WELL-BEING
With their outstanding designs and architectural sculpture-like shapes, the new Gessi Private Wellness® systems elevate with art the showering space and moment. They are functional jewels for the home.

Disponibile sia nella versione ad incasso che esterna e in diversi formati, questo soffione in acciaio si caratterizza per una elegante cornice che si sviluppa intorno allo spazio da dove si diffonde la luce. La complessa struttura incastolata fa apparire il soffione come sospeso, galleggiante nell'aria.

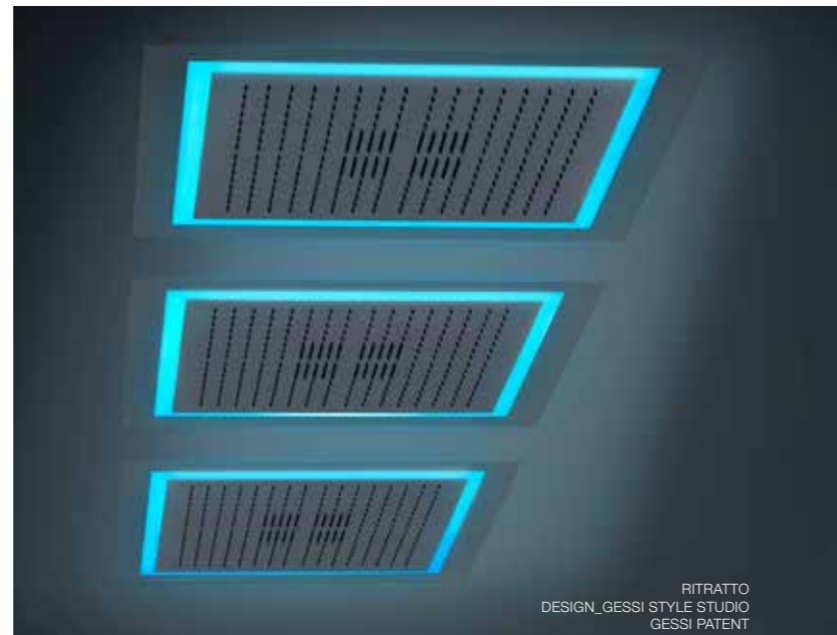

Available in both the built-in version and external version, the steel showerhead comes in different shapes and is characterized by an elegant frame that runs around a slot from where it diffuses light. The complex boxed structure makes the head look suspended, like floating in the air.

"ACQUA FEELING" La doppia densità di testarelle, cascata centrale, nebulizzatori in posizioni più ergonomiche garantiscono una percezione più intensa dell'acqua durante la doccia e una reale sensazione di benessere.
Double density of nozzles, central waterfall, atomizers in more ergonomic positions ensure a more intense perception of water during a shower and a real well being sensation.

IL VERO LUSSO È LA QUALITÀ DEL PROPRIO TEMPO VISSUTO NEI PROPRI SPAZI PERSONALI: IL PRIVATE WELLNESS®

Oggi il vero lusso riguarda la quantità e qualità del tempo dedicato a se stessi e degli spazi personali nei quali vivere e godere di momenti di indulgenza al relax, alla intimità, al riequilibrio e al recupero delle energie. Il bagno Gessi è uno spazio che coniuga funzione ed emozionalità; dove ci si prende cura di sé, non soltanto dal punto di vista igienico, ma anche e soprattutto dal punto di vista emotivo: una day-SPA personale.

TRUE LUXURY IS THE QUALITY OF THE TIME LIVED IN ONE'S OWN PERSONAL SPACES: THE PRIVATE WELLNESS®

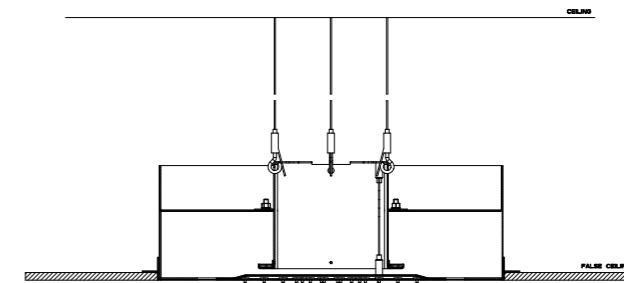

Today true luxury is the amount and quality of time devoted to oneself in personal spaces where to enjoy moments of relaxation, privacy, rebalance and re-energize. The Gessi bathroom is a space that combines function and emotion; where the user takes care of him/herself not only from the point of view of hygiene, but also from an emotional point of view: a personal day SPA.

DISEGNARE L'ACQUA, DISEGNARE IL BENESSERE

Gessi è globalmente riconosciuta come il "designer dell'acqua", grazie alla propria offerta di prodotti che erogano acqua in modo differente, abbinandola con aria e luce per fare di questo prezioso elemento l'oggetto di una esperienza totalmente godibile e personalizzabile.

DESIGNING WATER, DESIGNING WELLNESS

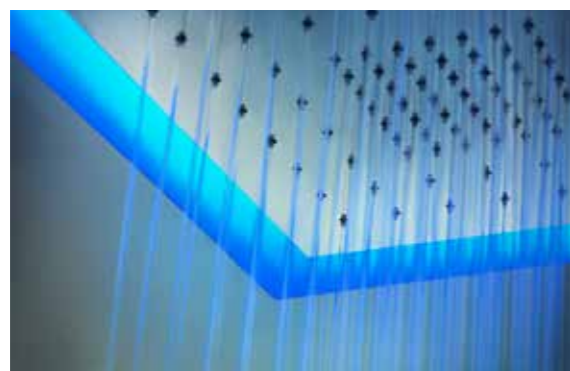

Gessi has gained world recognition as the "designer of water", through its offer of products that supply water in different fashions and mix it with air and light, making this precious element, the object of a totally enjoyable and customizable pleasure.

MULTISENSORIALITÀ

Multisensorialità per una ritrovata relazione tra l'acqua e la piacevolezza di una esperienza nel quale celebrare il contatto con l'io per una rinnovata soddisfazione dei sensi.

Cascate rinfrescanti o piogge soavi, rinvigorente idromassaggio o delicata atomizzazione insieme alla entusiasmante cromoterapia, forniscono una piacevole stimolazione multisensoriale che è l'obiettivo perseguito dalle molteplici soluzioni che Gessi offre per il Private Wellness®. Questi prodotti coniugano perfezione funzionale, estetica e tecnica: tecnologia di livello altissimo incorporata in oggetti di bellezza assoluta.

Disponibile sia nella versione ad incasso che esterna, in formato quadrato, tondo e rettangolare, il Sistema multifunzione Afilo ha una estetica molto raffinata. L'emissione della luce studiata per massimizzare l'emozione e il benessere, con scatola esterna in acciaio molto sottile, e pareti interne inclinate per una migliore diffusione dell'effetto cromatico.

Available in both the built-in and exposed versions, in square, round and rectangular shapes, the Afilo multifunction system has a very refined appearance. Light emission has been painstakingly studied to maximize the emotion and well-being; this aim is obtained with an outer carter in very thin steel, and inclined inner walls that enhance the diffusion of light.
